REACH & RoHS Declaration

The General Management, with the support of the Environment & Safety Division, declares, in relation to the fulfillment of the obligations established by the European REACH regulation, that as downstream user of substances, mixtures and articles and producer of articles not intended to substances during foreseeable use, is not subject to the obligations of pre-registration and registration of substances foreseen for producers and importers of substances and articles intended to release substances during use.

Boldrocchi S.r.l. has made every effort to fulfill its obligations, namely:

- check with its suppliers whether the articles supplied contain SVHC substances from the “candidate list” above the legal threshold (0.1% w/w).
- check with their suppliers that all substances as such or present in mixtures subject to REACH have been registered by them (or by upstream subjects) or pre-registered according to REACH.
- verify that the substances used in the manufacture of its products are used within the conditions of use provided for such substances as such or contained in mixtures.
- in the event of a supplier failing to comply with one of the previous points, find valid alternatives compliant with REACH in order to guarantee continuity of supplies.
- based on the information received, to evaluate the possible presence of SVHC substances in Boldrocchi products supplied to the customer.

Boldrocchi S.r.l. guarantees the continuity of supply regarding the products you have purchased and all the products in its catalog and declares that they comply with the REACH Regulation.

Based on the knowledge currently in our possession, Boldrocchi products DO NOT contain any of the SVHC candidate list substances listed in the list published by ECHA updated on 01/21/2025 in concentrations greater than 0.1% (weight / weight).

If in the future SVHC candidate list substances are found in Boldrocchi products in concentrations greater than 0.1% (weight / weight), we will inform you in compliance with Article 33 of the REACH Regulation.

RoHS Declaration

We also certify that our products comply with all the requirements and exemptions established by the European Directive 2011/65 / EU (RoHS 2) and by the Delegated European Directive 2015/863 / EU (RoHS 3)
